Houston, Texas 77067

## SUMMARY

Current Transportation Security Officer, 9 years of officer experience with 4 years of training and coaching officers. Recently completed the University of Texas at Austin's Full Stack Web Development Bootcamp program. Seeking to leverage acquired web development knowledge, team oriented attitude and graphic design experience to effectively fill a front end developer position.

## TECHNICAL SKILLS

**Languages:** HTML5, CSS3, JavaScript

**Databases:** MySQL, MongoDB

**Frameworks/Libraries:** React, Bootstrap, Foundation, JQuery

**Other:** Git/GitHub, Heroku, Node.js, Adobe Illustrator & Photoshop, Affinity Designer

## EXPERIENCE

### Transportation Security Officer

Department of Homeland Security, Houston, TX · 2011 - present

- Coached newly hired officers, provided on the job training and feedback on standard operating procedures and job performance.
- Performed daily maintenance of various operating equipment critical to everyday screening.
- Conducted screening procedures while maintaining a professional and calm demeanor during stressful encounters with passengers.

### Inside Sales Rep

Lackstone Granite & Marble, Houston, TX · 2010 - 2011

- Contacted existing builders and designers to promote newly stocked product which in turn contributed to positive sales.
- Managed to achieve weekly sales goal by securing an account with a single new design firm.
- Provided excellent customer service. Collected all relative information to ensure builders get exact materials chosen by customers and/or designers.

## EDUCATION

**Full Stack Development Bootcamp Certificate:** University of Texas at Austin - Houston, TX  
Intensive program that offered challenging exercises and group projects gaining experience in full-stack web development. Developed skills in Javascript, MongoDB, MySQL, Express, React, Bootstrap, Foundation, HTML5 and CSS3. Obtained excellent teamwork experience by creating web applications in a group setting.

**Graphic Design Certificate:** Lone Star College North Harris - Houston, TX

Program focused on graphic design concepts in illustration, color theory, web design, principles of design & image editing using Adobe Illustrator, Photoshop and InDesign. Class assignments involved hands-on photo editing, print media design, branding and logo design.
